**AUGER**  
**BITS**

**UCAN introduces a new full line of high quality Ship Auger Bits**

- Self-feeding point allows for fast and accurate drilling<sup>1</sup>
- Reinforced single cutter and side lip provide for practically effortless, clean drilling in most hard and soft wood even when nails are encountered<sup>2</sup>
- Unique, hollow center, corkscrew flute design clears debris from the hole quickly and efficiently<sup>3</sup>
- Wide lands ensure that the bit remains straight while drilling<sup>4</sup>
- Shank, hardened along its full length, resists bending
- Available in lengths of 6" & 18" and diameters ranging from 11/16" to 1-1/2"

Available from stock
