

Hex Head **SLEEVE ANCHOR** with Grade 6.8 Internal Bolt

FEATURES

- Fractional sizes
- Through fastening
- Finished head appearance
- Long expansion sleeve
(less concentration of stress on masonry)
- Hole diameter = Anchor diameter

FRACTIONAL SIZES

TYPICAL APPLICATIONS

- Fastening into solid concrete and masonry
- Shelving and racking
- Cable trays

DESCRIPTION

The **UCAN Hex Head Sleeve Anchor** is a medium duty anchor ideal for applications in solid concrete and masonry where finished bolt head appearance is required. It is a mechanical expansion anchor assembled with a ISO grade 6.8 internal hex bolt for increased shear resistance.
