

# U-DRILLS HEAVY DRILLERS' 5 MILLED POINTS

**UCAN introduces a range of # 5 point 1/2" (.500) milled point self-drills**

## TYPICAL APPLICATIONS

- Metal deck fastening to bar joists
- Decking to structural steel
- Heavy panel systems
- Conduit clips to steel angles

## TECH DATA

The RUSPRO™ multi layer coating provides outstanding resistance against road salt, humidity, solvents and other corrosive elements.

- exceptional corrosion resistance
- excellent acid (so<sub>2</sub>) resistance
- Bonded multi layer coating to resist abrasion

typical RUSPRO™ coating composition:

4.0 microns (0.00016") zinc plating

1.0 microns (0.00004") phosphate

5.0 microns (0.0002") ceramic top coat

salt spray Resistance (ASTM B117 - 03)

1,000 hours (5-10% red rust)

Kesternich test dIn 50028 - (2.0 liter so<sub>2</sub>)

15-20 cycles ( <10% red rust)

### NOW AVAILABLE FROM STOCK

PART #	SIZE	QTY.
TRH 12114MB5	12-24 X 1-1/4	4,000
TRH 12112MB5	12-24 X 1-1/2	3,000
TRH 122MB5	12-24 X 2	1,500
TRH 143MB5	1/4-28 X 3	1,000
TRH 144MB5	1/4-28 X 4	500
TRH 146MB5	1/4-28 X 6	500

## INSTALLATION NOTES

- Clutch and depth sensitive drill are recommended
- Maximum recommended RPM is 1000 -1500 RPM
- Impact drivers are not recommended
